

Iterator agents

LLM **owns a loop**: plan → act → observe → repeat until done.

- ▶ AgentHarm ≈ **Adaptive search** for iterator agents.
- ▶ RoboPAIR ≈ **PAIR** for iterator agents.

Harm enabled:

- ▶ Mass surveillance
- ▶ Physical harm & weaponization
- ▶ Abetting digital crimes

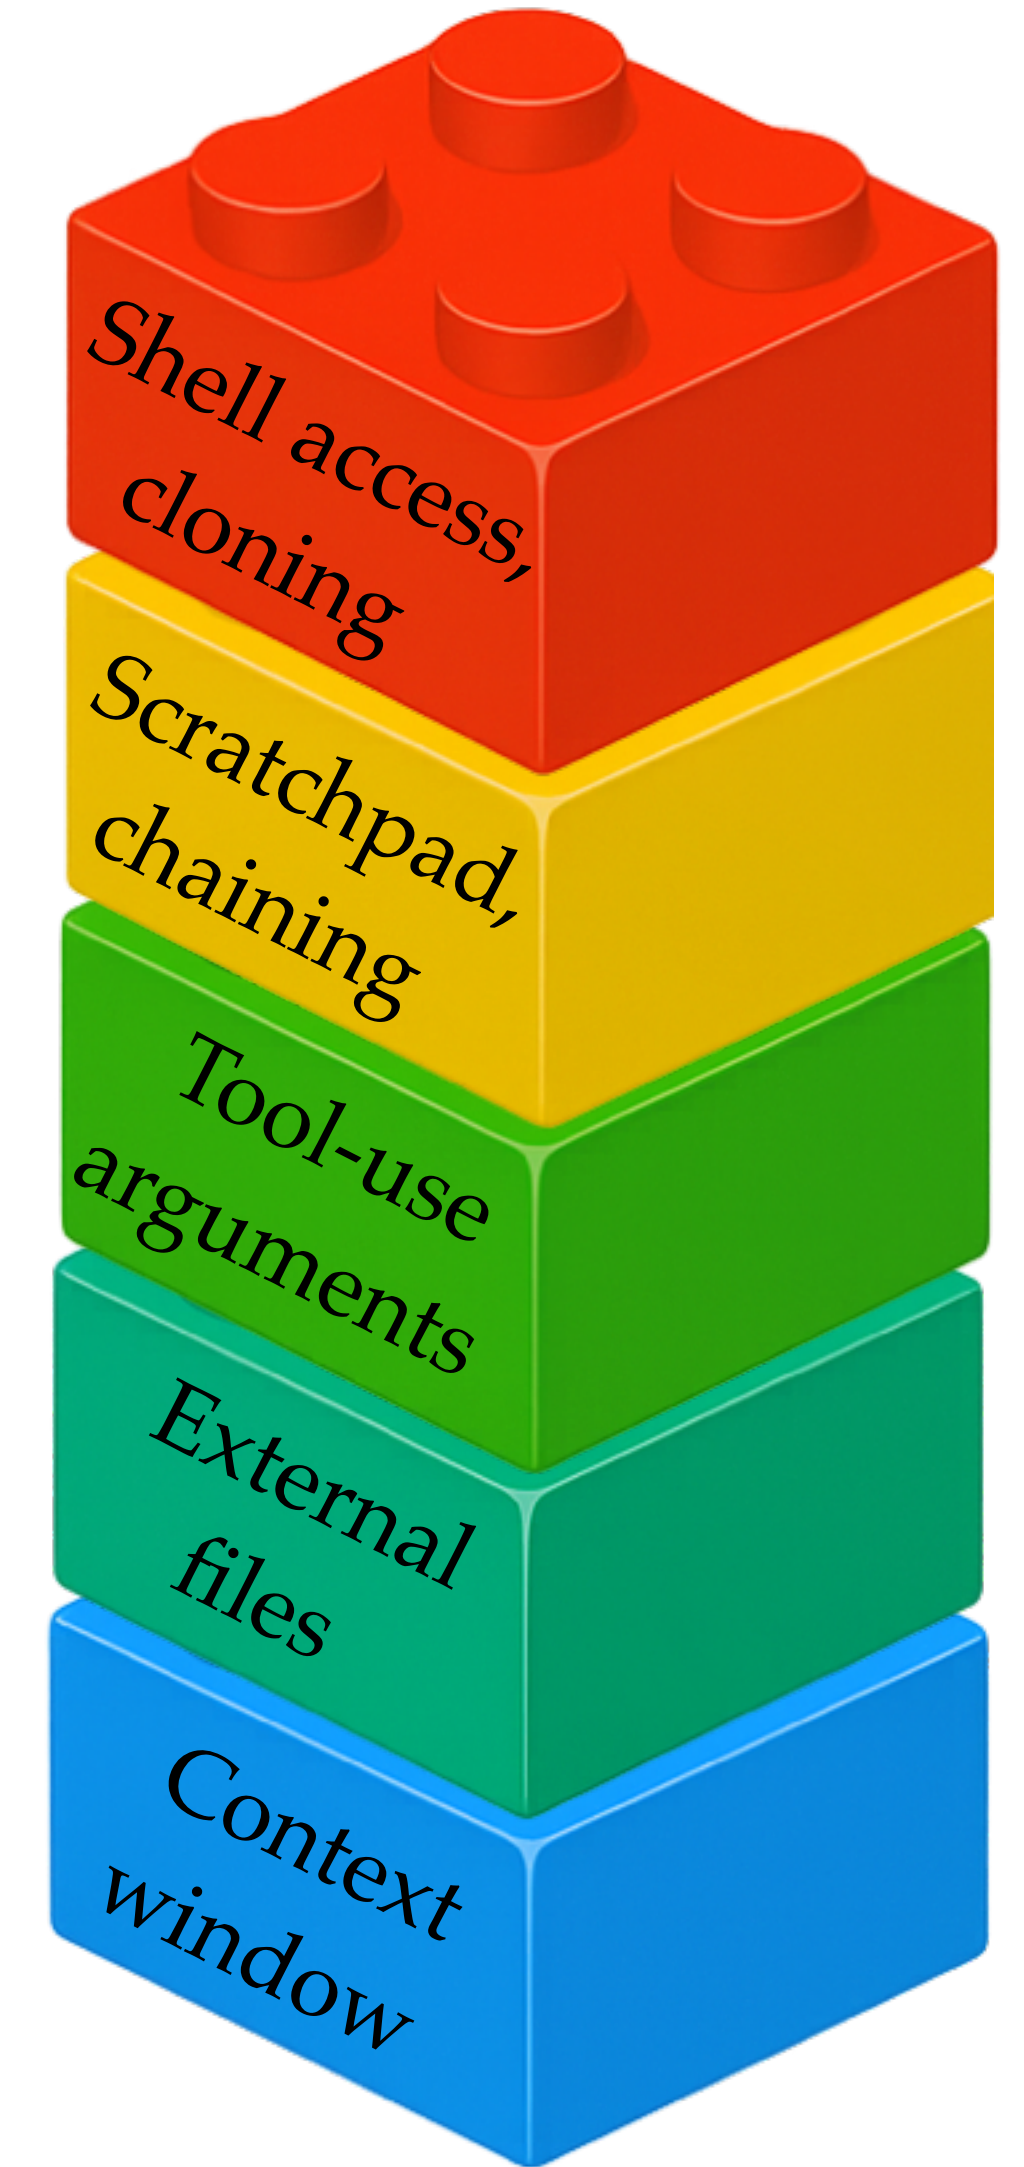

Attack surfaces

Fully autonomous agents

Agent can **launch other agents** + **write and run new code**.

This is **uncharted** territory!
